Seasonal fresh fish taken each morning from Sagami Bay

The "Empty-handed Activity Plan" is recommended as it is a good valued set of one-night accommodation and workshop set. Minshuku Kuyama fulfilled their dreams as the husband wanted to become a fisherman and his wife wanted to start a minshuku lodging. Every morning the husband bring back freshly caught seasonal fish from Sagami Bay which his wife cooks for your meal. You may be able to taste fish that only fishermen eat. This inn has only 1 room and has a very at-home atmosphere.

Seasonal Fish Workshops

At Minshuku Kuyama, there are many activities that you can participate in for an extra fee. The fun learning activities are family orientated and can be used in everyday life. Learn how to make the traditional Odawara hiraki himono semi-dried fish, your own salted anchovies, miso, pickled plums, citrus gelatins, Japanese mustard spinach pound cakes among others using local ingredients. Or make photo frames or accessory from seashells and sea glass. Those whom would like to try these activities, please ask the owners at time of booking as they are subject to availability.
