

Relish your time here

"Interact with nature." "Play in nature." "Take a nap `blanketed in history." Please spend your time in your favorite style! A farmhouse inn where you can enjoy farming in the changing landscape of spring, summer, autumn and winter. The meals at the inn, are centered around freshly picked homegrown vegetables, dishes seasoned with handmade miso and soy sauce. Also we serve handmade Sugagawa soba (buckwheat noodles), using the recipe has been handed down from ancient times.

It has been about 20 years since we opened "Nougyo Minshuku Ippuku". From requests of our guests wanting to see how apples are produced, we have made this lodging into an "active farm". One where you can join various agricultural activities.

The main building is a 150-year-old building that has been renovated to create a house that retains the good old-fashioned atmosphere, and you can relax in the ambiance of history. Learn of the kind of work is being done before fruition, what color the flowers are, seeing apples growing on the trees, how Kyoho grapes are harvested and the taste of freshly plucked peaches. See with your own eyes and think about food safety. Behind Nogyo Minshuku Ippu is Shiga Kogen, a designated UNESCO Eco Park.

Activities

We are farmers specializing in apples, grapes and peaches. Each season brings a different activity whether it's helping out on the farm or harvesting fruit. Also, you can learn how to make buckwheat noodles. We may not be able to respond to your requests as many of our activities that depend on nature, therefore we accept reservations one day prior.

Owner's comments

We hope that sharing a piece of our life as a farmer we will be able to find a spot in your heart. A bit unusual minshuku run by a bit unusual people and a place where there is a warm breeze for your soul.
