### Experience active mountain village life while getting in touch with nature

HANARE is located in the southern part of Nara Prefecture between the Omine and Daiko mountain ranges. The location with Mount Odaigahara, the source of the Yoshino river and Kinokawa river, is blessed with overwhelming nature and water. HANARE is quietly immersed in the mountains- 1 minute walk to the nearby river, and 0 seconds to the mountains! You can try chopping wood, harvesting at the fields (depending on the season), playing in the river or cooking using a traditional Japanese stove. The meals are made with the owners of the inn. For an extra fee, you can make your own moss terrarium.
