### Yuasa, a town of history and tradition

Yuasa-cho, Arita-gun, Wakayama Prefecture is located about 100 km from the center of Osaka City and 1 hour and 30 minutes by expressway. Since ancient times, it has prospered as a post town on Kumano Kodo and as a distribution center. It is also known as the birthplace of soy sauce in Japan, and this town with soy sauce breweries was listed as "Preservation Districts for Groups of Important Historic Buildings" in 2006.

### Mandarin oranges and the shore will help you forget time

Citrus fruits are cultivated in a temperate climate, and in early May, the oranges will bloom at the same time and we are wrapped in a fragrant scent. Minshuku Yamagiwa grows a variety of citrus fruits such as Iyokan and Valencia oranges at its own farm, and guests will be able to enjoy fresh flavors and aromas almost all year round. Picking mandarin oranges and making sanpokan fruit jam are also popular activities. Guests can relax and reinvigorate in our cozy inn.

### We are proud of our cuisine which uses local ingredients.

We feel deep satisfaction to serve our guest our own citrus fruits, umeboshi pickled plums, fresh local fish caught in Yuasa Bay, and dishes using specialty whitebait. We especially recommend shirasudon (rice bowl topped with white bait). In addition, savor our tea porridge, a local dish of Wakayama Prefecture, and a famous Kue nabe (hot pot with Longtooth grouper) in winter. The kue nabe with a light, elegant, and condensed umami is an exquisite dish that you will never forget once you've tasted it.
