

Spend the night feeling like you're visiting a relative's house in the countryside

Ojika Island in the north of the Goto archipelago. Why do not you experience the life of a leisurely island on a small island? We serve fresh fish caught in the sea nearby and simple meals using seasonal vegetables from the island. In a house with the remnants of the good old Showa era and without a TV, you can experience self-sufficient living and barter trading and other parts of the life of an islander. Beverages can be bought at a nearby liquor store and meals are shared by the owner and his wife. It's like spending a fun night at a relative's house in the country. Limited to one group per day. The owner moved here from Kanagawa prefecture.

Activities (Extra fees may apply)

Various activities such as Sabiki (flasher rig) fishing for horse mackerel from the nearby shore. There are times when you cannot catch any fish, but if you do, we will teach you how to handle them. There are lots of fun activities such as seasonal vegetable harvesting, cooking classes using island vegetables, tofu making and island guided tour (walking, bicycle) and playing at the beach. In addition to conducting tours tailored to the needs of our guest, such as guided tours to where hidden Christians once lived, Nozaki Island, other island guided island tours, we also offer various experience programs related to island life.

Please contact us at the time of booking or during your stay as some experience fees may apply.
